RECEIVED
APR 30 1986

DIVISION OF
OIL, GAS & MINING

ACT/045/004

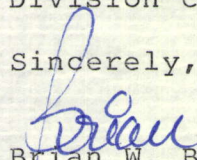

Dear Mr. Braxton:

Enclosed with this are six copies of revised maps for the Anaconda Carr fork Reclamation/Stabilization Plan. These map revisions should replace the present maps with the same numbers in your Volume 3 of the document. Also included are six copies of a new map Map 6-9 A and B which responds directly to a request by your staff.

Please distribute copies of this material to the other agencies also reviewing the plan. These maps should complete the requested changes and revisions agreed to between your staff and Anaconda.

Please inform us if we can be of any further assistance. We appreciate the interest and cooperation we have received from the Division on the review of this lengthy and complex plan. We believe that the open exchange of comments and questions which we received early in the review was instrumental in the Division completing its analyses in quick order.

Sincerely,

Brian W. Buck
Vice President
